

Applying vPSI Methods of Problem Solving

1-Day Hands-On Workshop

Who Should Attend?

Personnel at all levels of the organization will benefit from this training including:

- Line Management
- Supervisors
- HSEQ personnel
- Anyone who reports or investigates unplanned events (such as Accidents, Near Misses, and Incidents)
- Anyone who develops or implements corrective actions, or takes part in pre-task planning (risk assessment, JSA, JHA etc)

This workshop will train participants to:

- Understand why problems repeat, and identify some common weaknesses in safety programs
- Understand the true business value of near-miss events
- Use simple processes to investigate problems (such as accidents) faster with better results
- Produce effective, long lasting corrective actions
- Measure the quality of corrective actions and investigations
- Solve all types of work problems more effectively
- Improve your pre-task planning process
